

CCC E-bike Policy 2021

Only pedal-assist Class 1 e-bikes will be permitted for use during CCC events and/or group rides.

All E-bikes must conform to the rules and laws of the Ontario Highway Traffic Act.

Modified e-bikes will not be permitted on CCC rides.

All bicycles used during CCC events must be in good working order.

Helmets must be worn at all times.

Some group rides will have average speeds greater than 32KPH, please be aware of your e-bike's capabilities and your ability to keep up.

All riders are expected to be self-sufficient. Know the range of your battery(s).

Most CCC group rides are of the no-drop variety.

Please remember to allow the group to rejoin with you after a hill climb.

The use of e-bikes within the CCC will be a new experience for both people using e-bikes and those riding along with you. Until such time as we learn the nuances of e-bike use, please be aware and use extra caution.
